Medical Education Training Camp Transfer Guide Shawnee State University

Associate of Arts in General Studies,
Bachelor of Science in Health Science, and
Bachelor of Individualized Studies

MARIAH WOODWARD, RDH, MPH ASSISTANT
PROFESSOR
DIRECTOR, BSHS
SHAWNEE STATE UNIVERSITY

The **Associate of Arts in General Studies degree (AAGS)** provides the student with the credentials to begin an entry-level position in a variety of professional fields or to transfer credits to a bachelor's degree program of their choice. These students are given the freedom to take courses from a variety of fields while still receiving a thorough grounding in the Liberal Arts and Sciences including mathematics, natural sciences, history, writing, social sciences, philosophy, literature, art and oral communication. The Associate of General Studies degree requires the student to fulfill 60 college credit hours with specific credits from each of Shawnee State University's general education categories.

The **Bachelor of Science in Health Science (BSHS)** provides a natural baccalaureate degree pathway for many health-related careers. The degree requirements are flexible in order to allow opportunities for entrance and advancement in a wide variety of health-related fields. The BSHS opens doors to a multitude of careers or enables students to continue their education by pursuing a graduate program.

Career opportunities are endless, but listed below are a few.

- | | |
|-------------------------------|-----------------------------|
| Healthcare Administrator | Clinical Laboratory Science |
| Healthcare | Counseling Therapies |
| communications/information | Education |
| Epidemiology | Engineering and Science |
| Clinical Data Coordinator | Medicine Public Health |
| Quality Assurance Specialist | Rehabilitation Therapies |
| Health Scientist | Wellness Promotion |
| Health Science Policy Analyst | |

The **Bachelor of Individualized Studies (BIS)** This degree provides an opportunity to gain advanced skills for a specific career goal. As a flexible degree, the BIS can be tailored to the needs of a variety of professional fields. The BIS is particularly useful for:

- Students who wish to earn a degree for which there is no formal program
- Students seeking to combine aspects of two or more programs
- Students seeking a bachelor degree for career advancement
